

Delivering Microsoft Dynamics In The Cloud

All the advantages of Microsoft Dynamics Enterprise Resource Planning (ERP) software delivered to your users 'in the cloud'

Tectura & Attenda in Partnership

The Business Challenge

A challenge for many organisations is how to keep business critical applications always available and aligned to their ever changing business processes. There is a need to scale the underpinning technology to support increasing transaction volumes, whilst maintaining the solution within a highly available and secure operating environment.

To overcome this challenge and provide clients with an implementation alternative, Tectura UK and Attenda have formed a partnership, to offer clients all the benefits of Microsoft Dynamics® without the challenges associated with buying and maintaining a complex IT infrastructure.

A Proven Business Management Solution

Microsoft Dynamics is well proven as a flexible, easy to use business management solution, designed to help small and medium size companies to drive performance and increase profitability.

Dynamics helps to simplify and streamline your highly specialised business processes, rapidly adapting to the unique way that you do business. Through simplified customisation and ease of use, it enables businesses to easily add functionality, custom applications and online business capabilities.

Microsoft Dynamics is recognised to have the lowest TCO in the ERP market. It integrates easily with widely familiar Microsoft products such as Exchange and Office, thus lowering implementation and training costs and accelerating ROI.

Whether you are considering Microsoft Dynamics® AX or Microsoft Dynamics® NAV, delivering this business critical software to your users 'in the cloud' can provide some big benefits to your business.

Why in the Cloud?

By offering Microsoft Dynamics in the cloud, Tectura with Attenda can provide a comprehensive 24 x 7 solution, offering guaranteed application led service levels for all users. This leaves your internal IT resources free to focus on adding value within your business, driving competitive advantage.

Through our Microsoft Dynamics® Cloud Service we:

- Deliver, operate and manage your Microsoft Dynamics solution, from within our secure data centres, using a Cloud Services deployment model
- Ensure the constant availability, performance and security of these business critical applications
- Deliver the IT infrastructure and services at a fixed monthly or quarterly charge, for the duration of the contract
- Use a highly skilled team of Microsoft professionals, experienced in the deployment, configuration and maintenance of Microsoft Dynamics
- Integrate your Microsoft Dynamics ERP solution with other Microsoft technologies such as BizTalk Server or SharePoint services
- Provide an optional, cost effective disaster recovery capability

With a fully managed service that is based upon Attenda's Cloud Computing platform, Attenda RTI, you no longer have to invest in costly IT infrastructure or ongoing maintenance to support your Microsoft Dynamics solution.

As your solution grows with the business, your IT infrastructure can also grow to match business demand without the need for capital investment in high specification servers.

- Providing piece of mind through IT certainty
- Diminishing your IT infrastructure costs
- Delivering a scalable solution that can grow with your business
- Enabling your staff to focus on adding value to your business

What are the Benefits?

Just some of the benefits we can bring to your business in operating Microsoft Dynamics in the cloud are:

- We manage, secure and optimise the performance of your business critical Microsoft Dynamics applications ensuring they are always available
- We deliver computing resources on demand, enabling IT capacity to be increased during your busiest trading periods, right sizing your business for agility
- A fixed monthly recurring charge with high availability business led Service Level Agreements (SLAs), assuring service quality
- We proactively monitor and manage your applications and IT infrastructure, whilst you focus on your business and IT strategy
- We future-proof your IT investment providing easy access to the latest advances in technologies

Why the Tectura & Attenda Partnership?

In the partnership Tectura provides, consultancy, software and implementation of the Microsoft Dynamics enterprise resource planning (ERP) and CRM solutions. Attenda, as Tectura's recommended hosting partner, provides the IT infrastructure, delivering a fully managed application hosting service to ensure this critical business application is always available. The application is delivered to your users 'in the cloud' meaning that you can focus on what you do best, leaving the rest to us. Our partnership delivers certainty and confidence in the operational management of your Microsoft Dynamics applications.

The strength of the partnership is the combined depth and breadth of expertise in Microsoft applications and technologies. With a client-centric approach that focuses on the very highest service levels, with business-led SLAs, Attenda & Tectura is your strategic IT partnership that can bring you business innovation and agility.

About Attenda

Attenda is focused 100% on managing high availability critical enterprise and internet applications and IT Infrastructures that businesses depend upon to operate effectively, ensuring that the applications are 'always on'. By allowing clients to selectively outsource their IT operations they can refocus on using IT to add strategic value to their business.

Attenda's unique delivery approach is based upon a substantial investment in its operations platform Attenda M.O. which uniquely integrates talented people, ITIL compliant processes and sophisticated technologies to deliver exceptional service levels, but at a cost that is amortised across its entire client base.

As a Microsoft Gold Certified Partner, Attenda specialises in best practice management for Microsoft enterprise and internet technologies.

About Tectura

Tectura is a worldwide provider of business consulting services delivering exceptional services and sustainable value through consulting, software and IT implementation. Tectura applies its industry knowledge and best practices philosophy to provide Microsoft Dynamics® ERP, Microsoft Dynamics® CRM and technology solutions.

A Microsoft Gold Certified Partner, Tectura maximise its vast technology resources and deep Microsoft expertise to deliver increased efficiency, project acceleration and a competitive edge. Tectura's consultants and technical team members are experienced at delivering the outstanding functionality of Microsoft Dynamics hosted on dedicated infrastructure or in the Cloud through Tectura's hosting partner Attenda.

“ In partnering with Attenda, we can provide the same high levels of professionalism, expertise and client care, but now we can deliver flexible, cost effective, fully hosted solutions based upon Microsoft's market-leading Dynamics products. ”
